

For those who haven't started working with the web forms, please be aware of these three point of view (POV) icons that will make it easier to navigate to your data:

1. Hit the Go icon  after you've made a change to your POV on a form.

6a. Tweak **Point of View**

Organization	Fund	Program	CREF
2405-Penn Relays	000000-GENERAL UNRESTRICTED	0000-Not Program Related	24-0000-UNDEFINED

If you don't hit Go, then you will be entering and saving data to your existing (old) POV.

2. For now, ignore the Edit Members icon . This is the other way to select a different org, program, fund, or cref on a form. It's cumbersome and only provides the first 500 members for each POV dimension. We expect Oracle to improve this functionality in a later release.

3. Lastly, the Options icon  allows you to hide/unhide the dimension name in the POV. This is simply an appearance preference.

Organization	Fund
2405-Penn Relays	000000-GENERAL UNRESTRICTED

vs.

2405-Penn Relays	000000-GENERAL UNRESTRICTED
